Mastering the Functionality

Solutions for
Wheel Pressure Control
- Air Regulating System
  (Directional Control Valve LVS)

Lift Axle
- Lifting, Lowering, Floating
  (Directional Control Valve LVS)

Undercarriage
- Lifting, Lowering, Leveling
  (Directional Control Valve LVS, Cylinder Series FSD)

Steering
- Axle 1/3
  (Trailing Axle/Leading Axle,
   Slope-drift Function)
  (Directional Control Valve LVS)
- Locking System
  (System Manifold Block)

Support Leg
- Retract/Extend
  (Directional Control Valve LVS + SVH04)

Drawbar Suspension
- Leveling, Accumulator Pretension
  (Directional Control Valve LVS + SVH04,
   Cylinder Series DW)

Master Control
- (System Manifold Block)
